

## CREATIVE DOUGH

Do you need to add an extra design to your electronics?  
Try it with your own colorful creative dough!

## BEE TOOLS AND MATERIALS

1. 200 ml - Salt
2. 400 ml - Flour
3. 200 ml - Water
4. Measuring cup
5. Glue
6. Food coloring
7. Cutter and pen
8. Smartphone protected with plastic bag and cable
9. Bowl

## BEE STEP 1 - MIX AND KNEAD

1. Take the bowl and mix the flour, salt and warm water together until it becomes a dough.
2. Place the dough on a surface and knead for 10 minutes, add some flour until it doesn't stick anymore or water if it got too dry.
3. Place the dough back into the bowl, and cover it with plastic wrap. Let it sit for 30 minutes before using.

## BEE STEP 2 - COLOR THE DOUGH

1. Prepare the colors of choice in little cups
2. Add the food coloring to the different dough parts as desired

## BEE STEP 3 - CREATE THE BASE

1. Using the dough, make a ball, it will serve as a base
2. Cut the ball like a little chair with a cutter at the correct angle where your smartphone can sit
3. Verify the thickness of your smartphone that it will fit once the moustache is glued as support (see next steps)
4. Cut out space for the cable, form it with a pencil

www.bee-creative.lu page 5/8

## BEE STEP 4 - CUT THE MOUSTACHE

1. Smartphone and position on the base
2. Base with cable
3. Cut the moustache
4. Verify everything fits
5. Dry the base and moustache by putting them in an oven at 90 degrees with the ventilator on: 2 hours for the moustache, 6 hours for the base

## BEE STEP 5 - ASSEMBLE

1. When the parts are dried, assemble them with glue
2. Test everything fits as it should by attaching the charging cable to your smartphone
3. Let the glue dry
4. Enjoy the maker-magic!
